

SIXTEENTH YEAR.

EARLINGTON, HOPKINS COUNTY, KY., THURSDAY, NOV. 2, 1905.

No. 43

IMPROVEMENT

In Earlington Yard—Six Tracks Will be Added and Coke Track Will be Doubled.

NUMEROUS OTHER IMPROVEMENT TO BE MADE.

On account of the vast increase in the traffic of the Henderson division the L. & N. has decided to extend the yard limits at this place and greatly increase their freight handling facilities. The yard will be divided into a north and south yard and six new side tracks will be added between No. 9 tipple and No. 11 switch. There will be a lead track extending north to the Fleming curve, and No. 10 track will be extended south to Barnsley making a siding of nearly a mile.

The coke oven track or No. 12, will be a double track consequently the coke handling facilities will be largely increased. A large force of men are now at work near Hecla with steam shovels and graders and the work will be pushed to completion as rapidly as possible. When this work is completed it will practically eliminate all switching over the Main street crossing as trains will be made up in the new yard. A general yardmaster's and telegraph office will be placed at No. 9 tipple in order to avoid delay to trains originating at Earlington.

Few people outside of the officials and Yardmaster Bramwell have any idea of the vast amount of freight handled in and out of Earlington. In one month's time there are on an average 3926 loads received from the north, 2819 loads received from the south and 1976 loads of coal and coke originating from the St. Bernard Mining Company making a total of 8721 loads handled by the Earlington yard force and these figures do not include the empty cars for the coal trade. In addition to this there are handled each day in this yard 8 mixed trains, 6 through freights and 6 through passengers. In the month of January, this year, there were 260 trains received from the north and 263 from the south with an average of 850 tons of freight to each train, this means there is something doing in the Earlington yard all the time and the yard crews and switch engines are kept busy day and night.

The L. & N., will spend \$15,000.00 in extending the Earlington yard and it is the consensus of opinion here that they have taken a long step in the right direction.

Rural Mail Costly.

Rural free delivery is expensive but good. It has cost something more than twelve millions a year already, though it reaches not more than one third of the rural population if any population can be properly described as rural in these utterly urban days. Petitions for the extension of this service pour in by the bushel. There were nearly five hundred of them in one week of last summer. New routes are established at the rate of about six hundred a month. When "every farm house is reached," the expense will be at least sixty million of dollars, provided no reduction of salaries is made, and the salaries of officials have a habit of being increased, not diminished. Rural free delivery is a great and good thing, and it shows how much Congress loves the farmers, for their virtues, of course, and not for their votes.

PUBLIC PRINTER

Cuts Down Estimates and Declares He Can Still Save More.

Washington, D. C., Oct. 30.—Mr. Ricketts, the Acting Public Printer, has submitted his estimates to the Treasury Department for transmission to Congress, showing the amounts required for the conduct of the Government Printing Office for the next fiscal year. The total amount carried on the estimates, including an item of \$350,000 for leaves of absence, is \$5,858,234.62. The amount expended for the fiscal year which ended last June was \$6,760,250.00, or an excess of \$906,022.04 over the amount which the Acting Public Printer estimates as necessary for the coming year.

Mr. Ricketts tonight stated that his estimates were compiled without reference to any action which might be taken by Congress or the Executive Departments looking to further reductions in the printing bill. He said that if Congress would remedy the defects in the printing laws which he regards in large part responsible for many of the wastes in printing, the saving to the Government would be much larger than that indicated by the reduction shown in his estimates.

ESCAPES GALLOW.

Death Sentence of Jas. Ezell Commuted to Life Imprisonment at Uniontown, Pa.

Paduach, Ky., Oct. 30.—The death sentence recently passed upon James Ezell, of Mayfield, at Uniontown, Pa., for the murder of Wm. Porter, will be commuted to a life sentence in the penitentiary, and the Kentucky boy will escape the gallows by the faithful work of his counsel, Hal S. Corbett, of Paduach. Mr. Corbett has just returned from Harrisburg, Pa., where he placed the case of Ezell before the Pardon Board and asked that the death sentence be commuted to life imprisonment.

Ezell is just twenty one years of age and was reared in Western Kentucky in one of the best families. His father lives in Paris, Tenn., and formerly lived in Mayfield, and the boy is known here. In September, 1904, while working as an operator at Uniontown, Ezell became involved in a quarrel with Wm. Porter, a dispatcher, and the result was that Porter was killed by Ezell.

LIFE TERM.

Frank Card, Formerly of Henderson, Receives Sentence for Brutal Murder.

St. Louis, Mo., Oct. 30.—Frank Wallis Card pleaded guilty today to the charge of murdering Mrs. Beulah Craft, formerly of Henderson, Ky., for whom he had forsaken his wife, and was sentenced by Judge Reynolds to ninety-nine years imprisonment. Card was silent in court as he had been over since the tragedy. All efforts to get him to talk of his crime were in vain. He had become known at the jail as "The Silent Man."

When seen in the jail tonight Card was smiling. Queried as to the cause of his merriment he said that he was pleased at having escaped hanging.

A Correction.

Some time since THE BEE stated that Brakeman Stodghill was struck on the head by Engineer Patterson. This was an error, it was the engineer of the steam shovel who struck young Stodghill. The BEE is glad to be able to make this correction.

FIERCE FLAMES

Do Great Damage to the Dry Goods and Clothing Stock of J. M. Victory.

CAUGHT FROM ELECTRIC LIGHT.

The inhabitants of Earlington were awakened from their slumbers Friday midnight by several successive blasts of the yard engine whistle. This is the recognized fire alarm at this place and in a short time a number of citizens were on hand to extinguish the flames. As it happened there was a play on at the opera house that night and quite a number had just returned home and had not retired, consequently they were able to be on the scene quickly.

On arriving at the scene of the fire it was discovered the fire was in the upper story. Thick black smoke was issuing from every crevice and flames could be seen through the upper windows. Robert Steinbaugh was the first man to discover the fire and the Policeman Mitchell broke the glass in the front door and attempted to go upstairs but the smoke was so dense they could scarcely breathe and were forced to come down.

EVERYBODY WORKS UNCLE.

The Nurse—The President Thinks You Ought to Take These Two in Charge, Also.

In the meantime several were on the scene including the hose department. There was no way to get the water to the fire unless the upstairs windows were broken. Albert Lar mouth and two or three others finally succeeded in getting into the upper story and broke the windows on both side and end. Water was then poured through these windows and the fire was soon under control.

Between the flames and water the stock consisting of men's clothing, hats, caps, carpets, matting, etc., was partially ruined. The water dripped through the floor and considerably damaged the stock down stairs. Men's and boys' suits, woolen hats and various other articles partially burned can be seen on the floor water soaked and muddy where they had been trampled under foot.

Mr. Victory had lately placed his fall and winter stock of goods and had in the neighborhood of \$15,000.00 worth in his store. The fire is thought to have originated among the clothing where an electric light bulb was found hanging against them. The loss is fully covered by insurance.

MISS ELEANOR DEE GORDON

Entertains Her Many Friends With Unique Halloween Party in Honor of Her Fourteenth Birthday.

The elegant home of Mr. and Mrs. W. L. Gordon was the scene of gay festivities Tuesday night. Miss Eleanor Dee, the charming daughter of this home, was fourteen and in her honor was given a "Halloween party." In addition to being brilliantly illuminated, jack-o' lanterns and Japanese lanterns were placed in profusion about the house. The rooms were artistically decorated with green boughs of oak and maple and the dining room contained, in addition to the many good things to eat and drink, a large Japanese umbrella, hung with a number of tiny lanterns of brilliant hue.

At seven o'clock promptly the guests began to arrive. They were dressed in the most fantastic style and represented every-thing from the goddess of liberty, enlightening the world, to a primitive maid. Indians, clowns, Turks, Greeks, Japanese, all were there, and a merry time they had. The genial host and charming hostess kept the children busy playing various games and shouts of mirth filled the house. While the children were in the

SMITH DIDN'T COME BACK

Abandoning Bank Cashier Still in Parts Unknown.

SMITH DID NOT ORGANIZE EARLINGTON AND MADISONVILLE BANKS—A CORRECTION.

W. B. Smith, former President of the Western National Bank, who is under several indictments in the United States Court, at Louisville, did not return to that city on Sunday as it was predicted by his friends he would do. His attorney said that he had heard from Smith but declined to say when or from what place or country. It is generally believed that he will not return at all unless traced and arrested by government agents.

An error of fact appeared, inadvertently, in these columns last week with reference to the connection of W. B. Smith with the Kentucky Bank and Trust Co., of Madisonville, and the Earlington Bank. It was stated that Smith had organized these banks. This was not the case and THE BEE takes pleasure in correcting the error. Both these banks were organized by Judge J. F. Gordon and Madisonville associates, who, after the organization of the Madisonville bank mentioned, brought Smith in as a banking man with experience and made him cashier of that institution. Smith was a stockholder in both banks.

As THE BEE said last week: "Smith did not have his hands on these banks long enough to leave his taint and each of the banks mentioned ranks among the best." Jesse Phillips has been cashier of Earlington Bank since its organization.

Will Issue Xmas Edition.

The Earlington Bee will issue on Dec. 14th, a 24 page Christmas edition. This edition will have a handsome holiday cover representing the "Nativity" and will contain in addition to the amount of local and general news, illustrated Christmas stories and verse. We will issue 3000 copies of this edition and advertisers will do well to take advantage of the increase in number and volume. Remember THE Earlington Bee circulates largely where no other paper goes and is one of the best advertising mediums in this end of the state. If you want the Earlington trade you must advertise in THE BEE and don't forget, "It pays to advertise."

Ghosts Promenade.

A crowd of fun lovers met en masse at Miss Celeste Moore's Halloween, bent on making that evening as full of ghostly horrors as possible. Upon the arrival of the leader the ghosts took up their line of march and traversed some of the principal streets and a few back allies, suitable only for the rendezvous of ghosts. After a halt at Mrs. Robinson's, they were at last corralled at Witch Mabel Martin's, where the remainder of the evening was spent in trying fortunes and enjoying the good things that are so acceptable to tired, hungry ghosts.

FAREWELL TO GOV. WRIGHT

One of the Most Popular Demonstrations to an American Official.

Americans, Englishmen, Spaniards and Filipinos, of Manila, Pay Tribute to Gov. Luke Wright.

Manila, Nov. 1.—The farewell banquet to Gov. Luke E. Wright was attended by many army officers and officials of the city and many popular demonstrations ever given to an official of the islands. The governor was escorted by Americans, Englishmen, Spaniards, Filipinos and he was cheered for ten minutes when he arose to speak. In his address he gave credit to his colleagues for the work that had been accomplished. He said there never had been personal differences between the commissioners. From the first they never had been conscious of swerving from the policy of President McKinley. He urged the people to cease political discussions and work for the development of the islands. He said:

"Whatever may be the utterances of any American, however distinguished, he speaks for himself alone. Congress speaks for the people. To the view that has been accomplished, may not the most suspicious Filipino trust the government?"

Gov. Wright expressed faith in the future of the archipelago and his belief that congress would act favorably toward them. A declaration that he expected to return in a few months was greeted with great applause.

A public reception which will be tendered to Gov. Wright and family on Friday promises to eclipse any similar event ever given here.

MAY RESULT IN GOOD LESSON

A College Initiation Pretext That Resulted in Death and Left Dead Perpetrators to Prison.

Cincinnati, Nov. 1.—Coroner Scarborough of Mount Vernon and police officials of this city have examined the body of young Stuart L. Pierson, of this city, who was killed by a train near Gambler, O., while waiting to be initiated into the Delta Kappa Epsilon society of Kenyon college, where he was a freshman.

Coroner Scarborough says that Pierson was tied to the railroad by fellow-students and left to test his nerve.

It had been the intention, of course to merely frighten him by placing him on the tracks and fastening him until just before the regular ten o'clock train came along. But an extra train swept along earlier and the young man could not be released in time to escape it, as the coroner believes.

Coroner Scarborough says that similar pranks, but without this terrible ending, have been played at Gambler before. He has arranged with the county prosecutor to prosecute parties concerned, all of whose names he has.

DEFORD WANTS VACATION

Novel Point Presented to Habeas Corpus Proceedings on Behalf of a Missouri Convict.

Jefferson, City, Mo., Nov. 1.—R. E. Brittain has filed in the state supreme court, in brief, application for a writ of habeas corpus on behalf of C. E. Deford, who is serving a year and a half of two years each for looting a small bank in northwest Missouri when he was cashier. The habeas corpus proceedings involve a curious point.

Deford, through his attorney, sets forth that he was sentenced to the prison for three terms of two years each and that his commitment fixes definitely when each term should begin. He has served 18 months of the first term, which, under the three-fourths rule for good behavior, terminates his first term of two years, and he contends that he should now be released and should remain at liberty until the beginning of the second term of two years, six months hence.

THE YELLOW FEVER RECORD

The Epidemic at New Orleans is Gradually Petering Out—Still Bad at Pensacola.

New Orleans, Nov. 1.—The official report to 6 p. m. Tuesday showed: New Cases, 2; total to date, 2,396; Deaths, 2; total to date, 446. Cases under treatment, 24; cases discharged, 2,926.

The break up of the federal forces which have been engaged in the fight against yellow fever has begun.

At Pensacola, Fla.

Pensacola, Fla., Nov. 1.—The summary of the yellow fever situation here is as follows: New cases, 9; total cases, 547. Deaths, 1; total to date, 78. Under treatment, 66; discharged, 404.

Manumens Refused.

New York, Nov. 1.—Justice Stover in the state supreme court denied an application by Mrs. Halpin, chairman of the republican county committee for a mandamus to compel the board of elections to place the name of Wm. T. Jordan, the republican column of an official ballot, as a nominee for district attorney.

"Cinderella" was a good play. There was something doing all the time, and there were no flares on "Cinderella". Every member of this company act their parts well, and people of this city were greatly pleased with the show. "Cinderella" played here two nights to full houses and gave a well attended matinee Saturday afternoon. Manager Y. C. Alley may well be proud of this troupe.

A merry party of children and grown-up folks went to Achorst on Sunday afternoon and, as usual, had quite a merry time, eating crab-apples, red haws, green hickory nuts, etc. It was an ideal afternoon, the air was crisp and fresh, and there was an abundance of supply of free of charge. The glorious god of day slid slowly down the crimson west, as he has done on so many previous occasions and all was as merry as a marriage bell, until one young gentleman electrified the crowd by exclaiming, "Say, fellows, I've got my watch!" The entire party at once began searching for the lost time-piece, going back over the trail, even to the top of the hill, where they had been playing. "It's a Very Solemn Occasion," but no glittering object met their view. At last, when they were about to give up in despair, a small maiden shrieked, "Eureka!" and the owner of the article made a mad rush for it. It was a dollar watch, but it was all he had and he wanted it.

WOULD WICK AND SCREAM

Baby's Awful Suffering from Eczema—Could Not Hold Her—Tore Face and Arms Almost to Pieces—Grateful Mother Says:

"CUTICURA REMEDIES SAVED HER LIFE"

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good; in fact, she kept getting worse. I used to wrap her hands up, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no traces of the humor left. I can truthfully say that they have saved her life, and I should advise any one suffering as she did, to give Cuticura a fair trial." Mrs. G. A. Conrad, Lebanon, N. H., Feb. 7, 1897.

FIVE YEARS LATER

Mrs. Conrad Writes

"It is with pleasure that I can inform you that the cure has been permanent. It is now six years since she was cured, and there has been no return of the disease since. I have advised a lot of friends to use Cuticura in all diseases of the skin."

Instant relief and refreshing sleep for skin-tormented babies, and rest for tired mothers, in warm baths with Cuticura Soap and gentle anointing with Cuticura Ointment, the great skin cure. This is the purest, sweetest, most quickly permanent, and economical treatment for torturing, disfiguring, itching, burning, sore, crusted and pimply skin and scalp humors.

Don't forget the words, "Cuticura Resolvent, the great blood purifier, for all skin diseases." It is the only blood purifier that does not harm the system. It is the only blood purifier that does not harm the system. It is the only blood purifier that does not harm the system.

Abe Lincoln

LAID BARE THE TRUTH WHEN HE SAID:

"You Can't fool All the People All the Time."

We were well aware of the truth of this statement when we went to the expense and trouble to move our large stock of over **Five Thousand** Pants to Madisonville and place them on sale.

When we opened for business a little over a month ago we proposed a sale so unusual that it was calculated to arouse suspicion that we were trying to fool the people.

Our prices were so low that people were suspicious, but a few days' business entirely vindicated us in our claim of offering to the public the entire stock of the Forked Deer Pants Manufacturing Co. at Actual Cost of Manufacture. A thousand customers from Madisonville and surrounding country have been convinced that

we are selling pants cheaper than they have ever been sold in this section before.

Our business has been so satisfactory that we have decided to remain in Madisonville indefinitely.

Over two hundred distinct and up-to-date patterns from which to select. Largest and most varied assortment of pants in the State of Kentucky outside of Louisville.

You get the benefit not only of the retailer's profit but also of the manufacturer's profit because we are going out of business and will be satisfied to get back what our goods actually cost to make them.

Genuine U. S. Army SHOES!

Uncle Sam took inventory about 3 weeks ago, of his army supplies at the Quartermaster's Department and found he had a surplus of about 5,000 pairs of Army Shoes. He decided to sell them at a small cost and we bought 1200 pairs.

There are three sizes in the lot--8, 9 and 10--all wide, roomy shoes. They are made of tan Russian Calf Stock with a solid oak sole, Goodyear welted, and every seam is stitched four times. Every part of the shoe is inspected and stamped with the inspector's name, making it a guarantee of absolutely perfect stock and acceptable to Uncle Sam.

If you are in need of a good wear-resisting shoe for every day use, and can use one of these three sizes, it will be the chance of a lifetime to get even with the government.

These shoes can't be produced to retail for less than \$3.50 a pair. We place them in your hands at a "working-man's" price of

\$2.18 a Pair.

THE PRESIDENT FINISHES TOUR

He Spent the Last Day in New Orleans, Receiving a Warm Welcome.

MAKES THE RETURN TRIP BY WATER ON GOVERNMENT VESSELS

When the President Was Passing Down the River, To the Gulf, the Lighthouse Tender, Magnolia, On Which He Took Passage, Was In Collision With a Freight Steamer--No One Was Injured.

The president finished his tour in the south, at New Orleans, on the 26th, where he received a warm welcome. He left that city on the lighthouse tender Magnolia, in the evening, bound for the mouth of the Mississippi, where the armored cruiser West Virginia was waiting to convey him to Hampton Roads, Va., from whence he will journey to Washington by rail. Sixty miles below New Orleans the Magnolia collided with the freight steamer Esparta, at 2 a. m., on the 27th, but no one on either vessel was injured. The vessels were run to the river bank and the president, after ascertaining that none was injured, returned to his bed. In the morning the revenue cutter Ivy arrived and conveyed the president to the West Virginia. The war vessel fired 21 guns, and steamed away.

The president was in constant communication with the main land by wireless telegraphy. Washington was communicated with for a distance of 1,100 miles. He exchanged greetings with the mayor of Savannah, Ga., while coming up the eastern coast.

The president reached Hampton Roads on the night of Monday, October 30, and at 12:40 a. m. of Tuesday was transferred to the Dolphin, reaching Washington during the day.

Legally Upon Soil of America. Washington, Oct. 29--So far as the official records show, President Roosevelt, on leaving the south on the West Virginia, is the first of the executives which this country has had to go beyond its territorial limits.

The attention of some of the legal authorities here having been called to that fact, they were unanimously of opinion that in going beyond the three-mile limit the president has in no sense vacated his office, even temporarily. They point out that there is really nothing in the constitution prohibiting the president from leaving American territory, and in the present case, being

on a national ship, the deck of which is as much a part of American territory as the District of Columbia, he has not legally departed from the country.

In fact, some of the able lawyers here express the opinion that even if the president should go to a foreign country the doctrine of extra territoriality would extend to that country with him.

The last two days of the president's tour were spent in Arkansas and New Orleans, where he received enthusiastic ovations.

The Visible Supply of Cotton. New Orleans, Oct. 28--Secretary Hester's statement of the world's visible supply of cotton shows a total of 3,666,216 bales against 3,552,222 last week. Of this the total of American cotton is 2,942,216 against 2,795,222 last week.

In Memory of the Dead. Tokio, Oct. 26--Admiral Togo delivered the oration at the Shinto rites in memory of the officers and men who lost their lives during the war. Thousands attended the ceremonies at Aoyama cemetery, Tokio.

Yellow Fever in Mississippi. Jackson, Miss., Oct. 31--To date 48 people have died in Mississippi during the epidemic of yellow fever. There have been 659 cases.

SMALLPOX.

Judge Givens has not dared to specify what towns of Hopkins county did not pay their own smallpox bills. He cannot separate himself from his demagoguery long enough to tell the truth about this matter—at least not in time for the correction to get abroad before the election—and relieve "certain towns" of an unjust reflection cast by the Judge in a recent editorial in the Madisonville Hustler.

In that editorial he said the county would soon be out of debt, "unless smallpox breaks out among Republicans of certain towns in the county," thus intimating, for political purposes, that "certain towns" of the county had been a heavy expense to the county by reason of having failed to care for and support their own sick and control the disease at the town's own expense.

Last week THE BEE asked Judge Givens to specify and to tell his readers what towns had been an expense to the county in this smallpox matter. The BEE suggested that the Judge had recently said something about a "square deal" and told Judge Bud that "insinuation is not square." We also indulged in some pleasantness at the inference from the Judge's utter-

ance, that none but Republicans have smallpox. We asked the Judge what a Republican might do to become immune.

But Judge Givens does not specify the towns.

His reply is that "when you throw a rock into a pack of dogs, the one that is hit 'hollers.' The Earlington Bee 'hollered' and therefore we judge that it was hit, in connection with the expense the county was put to on account of the smallpox epidemics we had in the county." And then he indulges in additional insinuation calculated to convince his readers that the Republican towns have been a heavy expense to the county by reason of the smallpox.

The Judge evades the question utterly and makes no reply to THE BEE's inquiry and still leaves his readers in the dark, the victims of their own imaginations as to what "certain towns," with some Republican citizens, there are that are such expensive burdens to the county.

Of course, the Judge would not be unfair to anybody, for the world. He believes in a "square deal." He says there isn't any demagoguery at all in his making up. He wouldn't, of course—for his right arm—have anybody think that Earlington, for instance, was one of the towns that had Republican smallpox at the county's expense. Of course he wants his readers to know that Earlington, as THE BEE stated last week, has not cost the county one cent in this connection. But when asked to "specify" this "square" Judge does neither name the towns that have been an expense to the county nor those that have not been an expense. He still leaves it "certain towns," so that his readers may guess an untruth.

Perhaps Judge Givens may conclude—after the election—to specify the towns that enjoyed the smallpox epidemics at the expense of the county. In the

meantime let all good citizens pray for deliverance from demagoguery and immunity from smallpox.

The home owners of Earlington, of whom there is a large and increasing number, as well as a gratifying proportion of those who live in rented property, have, most of them, made their places of abode real homes by beautifying their grounds with flowers and trees, while they add comforts to the interior of these homes. These things are already, and should become to even a greater degree, matters of pride and delight. THE BEE recalls that when our visitors of the United Order of the Golden Cross within our gates a few months since these friendly strangers said they had not expected to see any attractive homes here, because they looked upon Earlington as "just a mining town." They said further, however, with emphasis, after arriving that the first impression made upon them was that Earlington was a city of homes. The vines and the flowers and the trees in the yards of these homes held out the sure promise of the comfort and the hospitalities within. These are good things and we can't have too much of them. Now is one of the best times in the year to plant trees, for both shade and fruit, roses and many hardy plants and shrubs that would make homes beautiful. All can have these things and at little cost of time or money. Trees may be brought from the woods in some variety and made to adorn the town and its homes. Let us all contribute in this way to make Earlington handsomer and more attractive to our visitors and to ourselves.

OLLIE JAMES thinks almost as much of Theodore Roosevelt as he does of William Jennings Bryan, so he says. He hardly

knows which is the greater man. Well, the original Roosevelt adherents take comfort and not offense in the praise now being accorded our President by his original enemies.

GREATLY ENJOYED THE TRIP

The President Back in the White House After His Trip by Land and Sea.

Washington, Nov. 1.—President Roosevelt came ashore from the dispatch boat Dolphin at the navy yard at 11:55. He said he greatly enjoyed his trip from New Orleans in the cruiser West Virginia, notwithstanding the gale and heavy seas that attended the voyage.

The president was received by a guard of marines accompanied by the Marine band. Lined up on the wharf on either side of the landing was a squad of naval gunners who fired a salute of 21 guns when the president arrived, and another salute when he left the yard at 12 o'clock.

Mrs. Roosevelt drove to the yard and greeted the president on his arrival. The president and Mrs. Roosevelt were driven direct to the White House. After luncheon the president went to the executive offices, where a cabinet meeting was held.

THE INCIDENT IS CLOSED

The Governor of Nankin Has Apologized to Admiral Train and Everything is Lovely.

Washington, Nov. 1.—The incident growing out of the attack on Rear Admiral Train and his son by a Chinese mob near Nankin has been satisfactorily adjusted. The state department received a dispatch which read:

"Admiral Train has just arrived at Shanghai. The incident occurred near Nankin, October 24. Train and his party were shooting when a woman was accidentally wounded by Train's son, but her injuries were slight. The son was detained by the mob, but an amicable settlement was made. The mob of several hundred, and two Chinese were wounded by two civilians. No sailors took part in the engagement. The governor of Nankin apologized to the officers, restored their guns and punished the ringleaders of the mob. The incident is regarded as closed."

Distinctively Different In Every Way the Best

The Weekly Globe-Democrat, of St. Louis, covers the field peculiarly and exclusively its own. It is issued twice every week. A big SEMI-WEEKLY paper, eight to ten large pages every Tuesday and Friday. One Dollar a year.

Nothing particularly different, you say, about that—there are other "Twice-A-Week" papers.

Yes, but the similarity ends there. No other paper is like the Globe-Democrat in any other respect. No other paper equals the Globe-Democrat in any respect.

An entirely unique feature of the Globe-Democrat, a feature which is highly prized by its readers, is its systematic method of preserving and presenting the CONTINUITY OF NEWS.

The two papers each week, Tuesday and Friday, are carefully prepared with the view of giving the complete news of all the world for that week.

They are so combined in the make-up as to form continued and connected stories of the various important events, showing the developments from day to day and the final results.

Other weekly and twice-a-week papers, as a rule, print only a few telegrams of the day of issue.

The "Twice-A-Week" Globe-Democrat gives the telegrams of every day of the week more comprehensively than the average Daily, and of more value to the average reader.

Moreover, the "Twice-A-Week" Globe-Democrat is not simply an echo of the Daily edition.

It is a separate and distinct publication, especially prepared to supply the requirements of people who want all the news of the earth—and something more.

It presents the World's daily history in concise but complete form. It is of equal interest to all parts of the United States. It is invaluable alike to men and women, young and old.

It thoroughly provides for every member of the family. In high-grade literature it particularly excels. Its market reports are correct and complete in every detail.

Its departments devoted to "The Home," "The Farm and Garden," "The Family Circle," "The Sunday School," "Science and Industry," are each and all THE BEST of their kind and either one is more than worth the subscription price of the paper.

Its politics is strictly REFORMER, but it is above all a newspaper, and it tells the truth without fear or favor. It has no equal or rival as a great National news and home journal.

Remember the price, only One Dollar per year—104 papers—less than one cent a copy. Postage prepaid.

You will make no mistake if you send \$1.00 TODAY for a year's subscription. Or you can get your own paper ONE YEAR WITHOUT COST by inducing two of your neighbors to subscribe and sending their names with \$2.00.

FREE SAMPLE COPIES, containing order blanks and full particulars, will be cheerfully furnished upon receipt of postal card request. Address Globe Printing Company, Publishers.

ASHBY & BAKER'S Great Loom End and Bargain Sale

That Commenced Saturday. Will Continue All Through This Week and Next.

The greatest sale in our history! Better goods, better values, lower prices and larger assortments will make this the crowning achievement of this SALE of SALES!

It's the bargain sale of the year. Thousands wait for it and look forward to it. Every person knows it means a wonderful saving to them, and the people come to our store assured that they get what is advertised. Confidence in our store, our methods and our goods have made these sales the talk of the economical people within our selling territory. Our aim is to increase this popularity and to please our customers. As a suggestion, it will be a very good policy to make it a point to do shopping early as possible during this sale, as some of the Loom End lots are not so large that they will last during the whole time of the sale. Come early and get the cream of the stock, before it is picked over.

The age of the sun has been for many years a matter of controversy between geologists and physicists.

The investigators of the friction claim that five hundred or one thousand million years have elapsed since the birth of the moon, and other scientists, arguing from purely geological reasons, claim the age of the sun to be between five and one thousand million years. On the other hand, it is asserted by physicists that, at the rate at which the sun is emitting energy, it can not have been active for more than twenty million years.

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, has had personal experience with Foley's Kidney Cure. "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession, without relief, until I commenced to use Foley's Kidney Cure. After taking bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend it to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

A new and remarkable addition to the useful applications of electricity is just now receiving the attention of the postal authorities of several European countries—the invention of Count Tagliani, an Italian. It consists of a device for the transmission of letters between distant points by electricity. For this purpose is proposed to construct a miniature railway strung on wires about the height of ordinary telegraph poles, the letters being transmitted in tiny inclosed carriages propelled by electricity.

Foley's Honey and Tar

heals lungs and stops the cough.

Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food, and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where it use must be continuous.

We will send you a sample free.

We are sure that this picture in the form of a label on the wrapper of every bottle of Emulsion you buy.

Two brothers, Julius and William, but commonly called Jule and Bill, were in the same class at school. The first morning of a certain teacher's regime each pupil was called upon to give his name. The elder of the two brothers happened to be the first one.

"Your name, please," asked the teacher in sharp, business like tones.

"Jule Clark."

She paused, her pencil raised above the tablet upon which she was prepared to record her pupils.

"No abbreviations, please—the whole name."

"Julius Clark."

"Thank you; thank that will do. And you?" she queried of bashful little William, who was literally quaking with fear of those staccato sentences and direct tones.

"Bill—Billie Clarke," he stammered.

FREE TRAINING OF NURSES.

Young Women of Small Towns and Country Districts to be Favored.

By the terms of a fund to be administered in connection with the Philadelphia School of Nurses, Witherspoon Building, Philadelphia, a number of young women from every county will receive free training in nursing. It is planned to ultimately reach and help in this way every village and township.

The young women will be provided with room, board, nurse uniforms and all the requirements of a well-appointed Christian home. At graduation the diploma of the School and the Order of the Red Cross will be conferred, qualifying for practice in any State or country; the railroad fare will then be paid by the hospital.

Those applying and chosen to receive the benefits of this fund will be given two years' training, with a rich experience in nursing the sick poor of the city under skilled instructors. The team may be shortened to eighteen months by taking a preliminary course of six months' reading and study at home. A special short course enables young women to quickly qualify themselves for self support and a substantial income.

In addition to regular nursing, the young women are taught how to preserve their own health; how to recognize, avoid and destroy contagion; how to establish and maintain perfect sanitary conditions about the home; they are prepared for positions as office nurses and physicians' assistants, and get a practical knowledge of City Mission movements, Deaconess training, College settlement work, and are trained for special positions of trust in institutions.

The school is ten years old and is endorsed by physicians, leading educators and prominent men throughout the country.

Any young woman of Hopkins county desiring to avail themselves of this exceptional opportunity to equip themselves for this noble work in life under the best conditions and without cost may get in their worst form will soon pass away if you will apply DeWitt's Kidney and Bladder Pills.

The Realistic American.

One of the worst things about the average American is that he will sell anything he owns if he can get a few cents for it. This disposition on his part tends to make him always unsettled. When a man has a good farm, a good home, good neighbors and a good income, where can he possibly go to better his condition? In fact, where can he go where he would not be worse off? Lots of men find out an expensive lot of money and peace of mind. The sensible thing for men to do in nine cases out of ten is to settle down contented, so far as expecting to find a home where everything is all right, and carefully study now to make old farm produce, their homes more pleasant, and their lives of use to their families and to the world.

Be Detracting of Alcohol.

Another potent factor in the detroning of alcohol has been the spirit of scientific research of recent years. In the great laboratories scientists have been carefully studying the effects of alcoholic liquors upon the various organs of the body, although they differ in their conclusions upon some points, the result is that those physicians who have most closely followed these investigations have, almost entirely, abandoned alcohol as a necessary part of their therapeutic outfit.

These elaborate studies of alcohol have convinced many that the nourishing and strengthening properties formerly ascribed to alcoholic liquors existed only in the imagination, and belong to the errors of an age which had no facilities for accurate observation.

The food qualities of the grains and fruits, it is now believed by many authorities, are destroyed in the process of making alcoholic drinks. Even the stimulating qualities ascribed to alcohol are denied by many writers, among the most exacting those of the depressant effect. From an Open Letter in the November Century.

Do not be deceived by counterfeits which you buy with Hazel Salt. The name of E. C. DeWitt & Co. is on every box of the genuine. Piles in their worst form will soon pass away if you will apply DeWitt's Kidney and Bladder Pills.

"And to think that ten months ago I looked like that! I owe it to German Syrup."

"The time-worn injunction, 'Never put off till to-morrow what you can do to-day,' is now generally presented in this form: 'Do it to-day!' That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks."

"Take some reliable remedy for it to-day—German Syrup that remedy be Dr. Rossbach's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and the continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure, as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists."

The vaccine for the cure of tuberculosis, the discovery of which was recently announced at the international congress at Paris by Prof. Von Behring, will be brought within the reach of the poorest people in every part of the world within a year, according to a statement made by Dr. E. Bischoff, of the firm of C. Bischoff & Co., the professor's American agent. Dr. Bischoff is satisfied that a cure for consumption has actually been discovered, and denied that Von Behring is holding back his discovery for the sake of the money to be gained.

Constipation.

Health is absolutely impossible, if constipation be neglected. Many serious cases of liver and kidney complaints have sprung from neglected constipation. Such a deleterious condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Linney, F. M. Bromson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it is due medicine for constipation." 60c a bottle.

London physicians have taken up the laughter treatment and are prescribing it as an alternative to touch or drugs. For the time being the raw food cure, electric baths, open air, starvation, finsen rays, soothing music and going barefooted are set aside in favor of unrestrained mirth. "For one thing," says a London doctor, discussing the new remedy, "it accelerates the circulation and so aids digestion. It relieves the brain by quickening the movement of the blood through the veins and vessels."

LOCOMOTIVE BLASTS

Brakeman Ward Stodghill, who is working on the worktrain at Cedar Hill, Tenn., visited home-folks here Sunday.

W. G. Harris, of Hopkinsville, has signed a contract with the American Engineering Co., of Indianapolis, Ind., to locate and complete the survey of the Dawson Springs & Madisonville Railway Co. The corps of surveyors will be on the grounds the first of this week and will push the work to completion as fast as the weather will permit.

During the year ending June 30, 1905, 886 persons were killed and 13,783 injured as a result of accidents on railroad trains, according to the report of the interstate commerce commission, that has just been made public. There were 1,231 collisions and 1,334 derailments of which 163 collisions and 108 derailments affected passenger trains. Damage to cars, engines and roadways by these accidents amounts to \$2,410,471.

Fred Hosse, Jr., has accepted a position with the transportation department as caller.

The Providence accommodation made a trip here Sunday with coal shipments from that place.

Last week there was a meeting of the representatives of the Louisville & Nashville Railroad in Louisville and it was decided that the soliciting agents or the highest representative in each town take particular interest in the matter of unloading cars. In the larger cities and towns a tab will be kept on the cars received and if they are not unloaded the first day a representative

of the road will on the shipper and assist him in unloading the car.

As a result of the wreck which occurred at Chalybeate Springs several weeks ago, which it is alleged, was caused by the operator at Kelly's going to sleep and failing to deliver an order to the southbound train, very stringent orders have been sent out to the operators along the division. Under these orders when an operator receives an order he is to go out and place a torpedo on the track or post some other signal as required by the order, after doing which he is to report to the dispatcher giving the order that the proper signals have been displayed. This will entail additional work on the operators but will reduce the danger of head-on collisions to a minimum.

It is rumored that the Illinois Central Railroad Company will build a bridge across the Ohio river at Henderson. Surveying has been in progress by engineers of the company around there for several days and as the Illinois Central recently purchased land near the river and in the neighborhood where the surveying is now going on it is thought that the bridge will be built in the near future, if not at the present time. The company has been using the L. & N. R. R. bridge at that point to get across the river for the past year. No official announcement has been made by the company, however, in regard to this matter.

Operator Jas. Sander, who formerly worked here, but has been stationed at Howell, Ind., for sometime, is again at the key at this place nights.

Clyde Evans, who has braking on this division for several months has resigned and will seek employment elsewhere.

Conductor Ed. Heffer has

been off taking a few days' vacation this week.

An excursion train was run over the division to Evansville, Ind., Sunday.

Ask Bagazemmas Browder Myres if he likes to handle show scenery.

Two engines will be stationed at the scene of the new improvements to be made here, within the next days when the steam shovel begins operations. One engine will handle employees and the other one loaded cars.

Autocracy of the Romanoffs Ceases to Exist in Russia—Constitutional Government.

HISTORY MADE IN RUSSIA
MONDAY, OCTOBER 30, 1905

No Longer "By the Grace of God Emperor and Autocrat of All the Russias," But, "The Voice of the People is the Voice of God"—Witte Prime Minister, and Chooses a Cabinet.

History was made in Russia on Monday, October 30, 1905. On that day Nicholas, "by the grace of God emperor and autocrat of all the Russias," issued a manifesto, in which that title was used for the last time. He is now simply Emperor Nicholas of Russia. The autocratic business has ceased in that country. He has granted the nation a constitutional government, with a representative legislative body, the right of free speech, a free press and the habeas corpus.

M. Witte was appointed by the emperor premier, and he immediately called his cabinet. Elections will soon be held, and the new government of Russian will then be a reality.

"Gods will be placed in the political act of Russian society. It is impossible that society should desire a condition of anarchy which would destroy all the progress of the civil strife, the dismemberment of the empire."

BOSTON HARBOR MYSTERY
The Dead Woman Was a Chorus Singer at Her Lover's Wedding and Tells Things.

Boston, Oct. 30.—One part of the Boston harbor mystery has been solved by establishing the identity of the dismembered victim. The body was undoubtedly that of Miss Susan Geary, of Cambridge, Mass., member of a theatrical company, who is said to have dropped out of sight on September 11 last, a dispatch from Pittsburgh, Pa., in the arrest of Morris Nathan, member of a theatrical troupe in that city, and who is said to have been the girl's lover.

Nathan, it is said, has told all he knows. From what he told the Pittsburgh police, the arrest of a woman in Boston was occasioned. She conducts, it is stated, a maternity home.

A MONUMENT TO M'KINLEY
It Was Unveiled With Appropriate Ceremonies on Peconic Hill at Springfield, Mass.

Springfield, Mass., Oct. 28.—A magnificent autumn weather and the attendance of a large gathering of enthusiastic spectators, the monument erected here in memory of the late President McKinley was unveiled with appropriate exercises. The monument stands on Peconic hill, near one of the entrances to Forest park, on an eminence overlooking the Connecticut river.

BIG GOLD FIND IN ALASKA
San Said That Mine From 50 Cents to \$50 Per Pan, and Some \$175 Per Pan.

Tacoma, Wash., Oct. 31.—One of Alaska's greatest gold strikes was made two weeks ago a mile from Nome, so that was once the ocean beach of Behring sea. With 18 inches of pay dirt, yielding 50 cents to \$50 per pan and four inches of a rough streak running \$75 per pan, the gold strike declared to be the richest ever made on Nome beach.

SMITH CAME BACK.

Arrived in Louisville Yesterday. Delayed by Rough Weather.

W. B. Smith, the banker who is under indictment in the Federal Court, arrived in Louisville yesterday and gave bond for \$5000 with the American Surety Co., as surety. He said rough weather at sea prevented his return at the time he was scheduled to arrive. He spent Tuesday night at Cincinnati upon advice of his attorney, to avoid arrest and a stay in jail at Louisville over night.

This news comes in the late editions of the Louisville papers, after the story on our front page was printed.

Favored by Both Parties.

Republicans and Democrats alike praise Foley's Honey and Tar for coughs, colds and all throat and lung diseases, as no other remedy can compare with it. It is safe and sure. F. T. I can highly recommend it for coughs and colds."

OLLIE JAMES.

Congressman From First District
Heard at Temple Theatre.

LAFFOON MAKES BRIEF SPEECH.

Hon. Ollie James spoke at Temple Theatre, Monday afternoon in the interest of the Democratic party and the county ticket. Daytime is not a good time to get a crowd in Earlington and the audience numbered only about seventy-five. A number of Madisonville Democrats and candidates were there. There were a few ladies present. The meeting was not held at night, because the dates were filled with shows for several nights. The speaker was introduced by J. C. Phillips.

Mr. James is perhaps the best campaigner in the Democratic party in the State of Kentucky and probably made the strongest Democratic speech that will be heard in Hopkins county during the present campaign. He had a great deal to say of both Mr. Roosevelt and Mr. Bryan and it was hard to tell which he accorded the largest praise. A good Democrat, who did not vote for Roosevelt, said after the speaking that Ollie almost made him throw up his hat and shout, "Hurrah for Teddy!" before the meeting was at an end.

He devoted some time to the discussion of national issues and legislation in Congress. He claimed that Bryan was the originator of the movement for the regulation of railroad rates, etc., and said that Theodore Roosevelt had taken up the path "that bore the bloody stains of Bryan's faithful feet."

The speaker referred to the free silver movement of 1896. Said the Democrats had wanted more money in circulation and that for that they were denounced as anarchists. He said that today we had more money in circulation, and asked: "Who of you would go back to the conditions of 1896, when we only had \$22 per capita circulation for seventy-five million population, and now have \$83 per capita for eighty-five millions of population?" He asserted that this was the doctrine of Democracy put in force. The Democrats had wanted more money. We had more money now, therefore the Democrats had done it. And then he said: "The miner did it." He dug it out of the eternal hills. The Democrats in 1896 didn't know there was so much gold in the hills. They had advocated silver. God hadn't told the Democrats there was a lot of hidden gold and he didn't believe He had told the Republicans either. But there was gold and the miner had dug it out and we had it now.

He denounced the tobacco and other trusts and their methods as roundly as a Republican speaker could have done, the only difference being that he charged the Republican party with being the daddy of all the trusts and other things that "rob the people." He denounced the Republican party because the government raises a revenue on tobacco and then stated that all governments of the world use tobacco as a revenue producer. He put in a word for the "Dark Tobacco Growers' Association," when he said that through it the price of tobacco to the farmer had been advanced three cents a pound, but that there were a lot of fellows still holding back to see if it was going to benefit them.

Mr. James spoke of William Jennings Bryan in a manner that indicated he looked upon Bryan as the future leader of Democracy. He closed with a plea for the Democratic county ticket.

After Mr. James had closed his speech there were calls for Laffoon. Mr. Laffoon began by saying that it was hardly his time to make a speech after so brilliant an effort as the speech of Mr. James. He referred to his opponent in the race for county attorney, saying that he "thought he had skinned that Fox."

Among other things he said: "I haven't had anything hard to say against the institutions of Hopkins county." Said he had not even talked the "nigger proposition" in the county, and then proceeded to talk about the "nigger" for the next fifteen minutes. He said: "I believe if the Republican party is successful the county will be 'nigger ridden,'" and declared that the "niggers" ought to have the office. Said that "The niggers are as well qualified to fill the offices of the county as are the majority of the candidates on the Republican ticket." The most of his speech was taken up with brief comparisons of the Democratic and Republican candidates and the setting up of claims that the Democratic candidates were qualified and the Republican candidates not qualified.

MINING NOTES.

Mr. Jno. Morgan, of Barnsley, was here Saturday on business.

Foreman Jno. Carroll, of Victoria mines, was here Saturday evening visiting friends.

Barbourneville, Ky., Oct. 30.—Dr. Brunner, of Jellico, manager of the Bennett Jellico Coal Co., has purchased the property of the Barbourneville Blue Gem Coal Company, which he will operate.

Stable Boss Hugh Griffin, of St. Charles, was here this week visiting friends.

Hecla mine was idle Tuesday on account of shortage in the car supply.

A serious explosion occurred in a Western Pennsylvania coal mine on Sunday, by which five lives were lost under circumstances which reflect unusual honor upon the dead. Two weeks previously a fire had occurred in a mine, into which water had been liberally pumped for its extinction, and all work had been suspended in the interval. It was thought that the fire had been put out, but before resuming it was decided to have an examination made to make sure of it. Instead of sending operators down the shaft for that purpose, minor officers of company concluded to go themselves. For that purpose the superintendent, foremen and three fire bosses descended into the mine, all married men with large families and of considerable means. Contrary to their expectations the fire was found to be still burning, and in attempting to reach it by removing a barrier, an explosion occurred, in which all were killed. If the explosion had taken place while the miners were at work it is estimated that 500 lives would have been lost.

Henry Magonheimer, of Graham, is visiting his parents, Mr. and Mrs. Jacob Magonheimer, of this city, and friends here this week.

Development of the properties owned by the Broadway Mining Company at Rockport, Ky., has begun by the company. A shaft has been sunk to a depth of 50 feet and it is said that a town will be built near the mine.

Wyatt Ford, of Hecla, was here Monday attending the speaking.

Monday was pay day for the miners and consequently they were all happy.

A shortage of coal cars is prevailing on the Henderson division and it is affecting the local mines to such an extent that several of the mines are compelled to lose time on account of the scarcity of them all most every week. Business is good but the car supply is insufficient.

It is expected that the owners and operators of practically every coal mine in Kentucky will meet in Louisville Nov. 14th to take decisive action on the railroad rate bill, which will come up for consideration when Congress convenes next month. It is thought that in all probability a committee will be appointed at this meeting to present to President Roosevelt and the Interstate Commerce Committee of the Senate at Washington a petition declaring against the Eech-Townsend bill. It is said by some of the leading operators of the state that if this bill becomes a law or if simple rate legislation is enacted the coal interests of Kentucky must depend upon the state alone for a market alone for the mines of this state after the rates are fixed will not be able to compete successfully in other states where large quantities of coal is produced, for a market. Herebefore, a large amount of coal from Kentucky has been sold in these states.

Alberta Gallatin in "Cousin Kate."

There are countless actresses of note who have made for themselves a name by adhering strictly to one class of work, either drama or comedy, but few there are who are possessed of the versatility that is the true test of merit. Miss Alberta Gallatin is among that select number, which fact is evidenced by the work she has done in past seasons. Miss Gallatin will be seen in "Cousin Kate," at the Morton Theatre, Madisonville, Friday, Nov. 3rd. Prices, 25, 50, 75c, and \$1.00. Boxes and first 4 rows \$1.50.

Painters for Dairy-men.
Soft, white butter comes from hot
cream.

Milk quietly, cleanly, quickly.
Cows hate haste.

Too much sourness in cream causes
white specks in butter.

Keep the fresh, warm milk separ-
ate from the old. It keeps better.

Test your milk. It is not quanti-
ty so much as the quality that counts.
Keep the butter, intended for the
dairy, in thrifty, growing condition.

If you are buying new milk uten-
sils, see that all joints are smoothly
soldered.

Set milk after milking before it
becomes as cool as the atmosphere.
The cream will rise better.

Save the milk for the calves sweet
and of the same temperature as
when it comes from the cow.

Give the cows plenty of pumpkins.
If fed with the grain ration they will
increase the milk flow.

The nervous, restless cow, always
losing her feed, should be deterred
before she hurts somebody or some-
thing.

Habits of milking and feeding are
established when the heifer has her
first calf. She should be very care-
fully handled at this time.

Remember that the measure from a
single animal is worth about \$20 a
year. Don't let it waste in the barn-
yard or under the eaves.

To protect milk and butter from
ants, roaches, bugs, mice, etc.,
swinging shelves may be suspended
from the cellar ceiling by wires.

With Apologies to Riley.
When the frost is on the pumpkin an'
th' fodder's in th' shock,
You can see us madly chasin' 'round
an' 'round a city block.

For the coal bin now is empty an'
the air is gettin' chill,
An' we got to buy some fuel with no
coin to pay th' bill.

We have spent our summer's wages
where the many pleasures flock
An' th' frost that hits the pumpkin
give yours truly quite a shock.

Poultry on the Farm.
It has been proved time after time
that the farmer is the man that can

raise the chickens that will produce
the eggs and at a less expense than
any person that does not produce his
own feed, writes O. F. Hawes in Na-
tional Stockman. He has the advan-
tage of a free range, and if he
will go to the expense of some of
this fencing that the specialist has
to do to control them he can make
biddy pay her way well, and if he
does not he had better let the job to
some one that will. No man can
make a success out of any business
and not put his hand and good will
to the work.

The most popular fowls in the
United States are the American
breeds known as the Plymouth
Rocks and Wyandottes. They are
of medium size, good as broilers,
good as roasters, good egg producers,
the hens are good sitters and good
mothers, and for these reasons they
are known as general purpose fowls.

As egg producers, the Langshans
are esteemed very highly, and as
birds for the table they are excel-
lent. No fowl ever kept has brought
better returns for the expense of its
keep than this breed.

If you expect the land to feed you,
the land must be well fed first.

Profit in Turkeys.

There are about 6,500,000 turkeys
produced each year in the United
States, and the price ranges from 12
to 20 cents a pound at wholesale.
The demand is usually much greater
than the supply. As turkeys can be
produced at a maximum cost of 8
cents a pound, there is no reason
why they should not be raised more
extensively. There is no flesh on
the farm that will show a greater
profit. Farmers living in the vicini-
ty of towns can readily dispose of
their entire crop to private custo-
mers at retail prices and need not
depend on shippers or middlemen at
all. As in all stock breeding, the
greatest profit comes from disposing
of the fatted product as early as pos-
sible. For this reason and because
the birds fatten more readily in
warm than in very cold weather, the
greatest profit comes from market-
ing at Thanksgiving.—Cor. American
Cultivator.

VALUABLE INFORMATION

Each man has a chance in a lifetime
to reach the point of success, and this
opportunity is offered in Missouri,
Arkansas and Louisiana, the three
great agricultural and timber States,
traversed by the Iron Mountain Route,
where land can be purchased at from
\$3.50 to \$20.00 per acre, that is pro-
ducing from \$50 to \$500 per acre each
year. In cotton, corn, hay, sugar cane,
fruit and vegetables. The returns from
alfalfa growing in this district have
proven a record breaker—six crops
each year or six tons per acre at \$15.00
per ton on local markets is what is
claimed. All that is necessary is for
the home-seeker or investor to look over
the situation personally, as the country
speaks for itself, and on the first and
third Tuesdays of each month Home-
seekers' tickets are offered at rate of
one fare plus \$2.00 for the round trip.
